About Arecova Eco International

Arecova Eco International is a Bengaluru-based manufacturer and exporter of 100% natural areca leaf tableware. We make plates, bowls and trays from leaf sheaths that fall naturally from the areca palm, so no trees are cut for the material. We handle sampling, quality checks, packing and export paperwork ourselves.

How our plates are made

1. Leaf collection: fallen sheaths are gathered from areca plantations.
2. Cleaning: washed, soaked and dried to remove dust and dirt.
3. Heat pressing: pressed in heated moulds into plates, bowls and trays.
4. Quality check: edges, thickness, shape and cleanliness inspected by hand.
5. Packing: stacked in sleeves and packed in export cartons.

Why buyers choose us

- Samples before orders, and inspection before dispatch
- Export packing, invoices and shipping documents handled for you
- You talk to us directly on WhatsApp or email
- Areca leaf with no plastic or wax coating added
